

# APRIL 2026 LIFE REPORT

INTRODUCTION- This report seeks to inform you about Local News, Life, Legal and Chemical Abortion news. You can see this report on the OLL website : All ministries/MRL life tab.

## LOCAL NEWS

+SHILOH Center held an Open House on 31 March for the Knights and Ladies Auxiliary. Fr Dan blessed the facility. The Knights donated \$2000 of Baby Bottle receipts. Thanks to all who came.

+Midwest March for Life- thurs April 30 from 8-3 in Jeff City , Mo at the capital grounds. Details at [Midwestmarchforlife.com](http://Midwestmarchforlife.com) . Bishop Johnston will preside over the 130pm closing mass. Save the date. You can ride with me. Depart from church lot at 0645 am.

+Shiloh Walk for Life- is on 16 May at the Harrisonville City Park at 0830 am. Join us to support the Shiloh/Clara Centers and to pray for the unborn.

## LEGAL NEWS

+VOTE YES ON AMENDMENT 3 . It requires abortion clinics to meet medical standard for Health , Safety and cleanliness. It ensures parental consent for minors before aborting. It bans gender mutilation for minors . It reduces public funding for abortions.

+A St Louis University poll shows that 12% of Mo voters are unsure about supporting Amendment 3 . We have work to do.

+Vote Yes on Amendment 4-

\*A4 will modify current law that says initiative petitions only require a statewide majority to pass.

\*A4 will require a majority of voters in EACH of the 8 Mo Congressional Districts to approve a petition to amend the Mo constitution.

\*A4 will put the full text of the petition on the ballot.

+BEWARE . There are petition signature collectors (shady ones) circulating a petition to put an amendment on the Nov '26 ballot. The language, in summary, says that if a law is on the books, it cant be repealed without draconian requirements met. The abortion lobby is trying to defend against the Nov 26 Amendment 3. I saw an agent with the petition telling a lady that the petition would benefit the schools. BEWARE DON'T SIGN IT.

+In Mo vs FDA , Mo and 37 other states have sued the FDA for loosening the 2020 Safety Protocols on mifepristone. In 2021 the FDA allowed abortionists to prescribe mifepristone without an in person visit to a licensed doctor. This resulted in illegal interstate (and foreign) mailing of mifepristone to pro-life states. DOJ argued that states lack standing. If states do not who does? The 10<sup>th</sup> Amendment provides states standing . This suit might be the catalyst to get some action on chemical drug trafficking. Stay tuned.

## PRAY

+On 20 March So Dakota Gov Larry Rhoden signed 3 new ProLife bills into law. He signed them in a Pregnancy Center. They are:

- 1.It is a felony to dispense or advertise chemical abortion pills.
2. Defining what constitutes an abortion and
3. Require Public Schools to show students videos on prenatal development.

+ Texas AG Paxton has sued AID Access , the worlds largest distributor of abortion pills. The suit accuses them of illegally shipping deadly abortion drugs into the state, and practicing medicine without a Texas license. Access openly advertises in the 6 major cities in Texas. The Texas Human Life Protection Act forbids performing, inducing or attempting an abortion . Practicing medicine without a license draws a Fine of \$100,000 for each violation. Stay tuned.

+Senator Josh Hawley has proposed a bill titled Safeguarding Women From Chemical Abortion Act. The proposal bans abortion pills nationwide and allows women to sue companies that make them. The Act:  
~revokes FDA approval of mifepristone for abortions  
~Makes it illegal to label and distribute mifepristone for an abortion  
~creates a legal path for women harmed by abortion drugs to sue pill manufacturers.

+The final charge has been dropped against David Daleiden. Recall that he exposed Planned Parenthood's(PP) sale of aborted baby parts via an undercover video series . He was sued for 10 years. He has been totally cleared. The settlement disgorged profits of \$7.8 million from a PP Arizona clinic. PP is also disqualified from state and federal funding for any Texas claims. Life Wins !

## LIFE NEWS

+On 31 Mar the HHS announced the restoration of the Trump45 administration's "Protect Life Rule". The rule prohibits Title X family planning funds from going to organizations that perform abortions. Once again in effect after Biden rescinded it, the rule will push Planned Parenthood to NOT refer, encourage, or commit abortions. Thus PP will forego any grants from Title X funds. When Trump45 first issued the Protect Life Rule, Calif sued and lost in the liberal 9<sup>th</sup> Circuit. In 2020 PP elected to choose abortion, drop out of Title X and lose \$60 million. The same is likely now in 2026.

+On 19 Mar the newest Safe Haven Baby Box was dedicated. The box was placed at the Jefferson City ,MO EMS facility. Gov Mike Kehoe spoke at the event. As you know these boxes allow mothers to put their baby up for adoption vs abandonment or worse.

+A Pew Research poll of 8500 people just showed that on the sanctity of life,76% of Americans want abortion banned or restricted, Up 5% from 2024.

+Planned Parenthood as a 501c3 is supposed to operate as a tax exempt non profit charitable organization. Since they are now selling retail services like Botox injections and cosmetic procedures, Senator Marsha Blackburn has formally requested the IRS to strip them of tax exempt status.

+On 31 Mar PP announced the closing of its Greensburg death center. On 6 April PP closed clinics in Texas, Pennsylvania, Missouri, Indiana, and Washington.

## CHEMICAL ABORTION NEWS

+Students for Life have touring displays at multiple colleges. Their "Chemical Abortion Hurts" display has harvested 1889 conversions to Life on 43 campuses and added 372 members to SFLA. 30% of students have denounced chemical abortions . 1 mother was helped thru an abortion reversal while on campus.

+Mississippi Gov Kate has a bill for signing in hand that would ban mailing, shipping or prescribing of abortion in the state w/o an in person visit. Missouri ??

+Tennessee Gov. Lee has a bill for signing on his desk. This bill allows family members of a child aborted by pill to sue the abortionist. Wrongful death suits of a minimum of \$1million damages can be filed. Tennessee law now protects preborn babies from any abortion. It is a felony for anyone to distribute abortion pills via mail or telehealth. The new bill allows family members , including the mother to file the wrongful death suit. Missouri ?

+5 US Senators have launched an investigation into DancoLabs, Evita and GenBioPro, all manufacturers of mifepristone. They have called for proof of compliance with federal safety protocols and measures to stop unlimited spread of mail order abortion chemicals violating state laws. Audits of prescribers certifications , online transactions and prescriptions knowingly past the 10 week FDA limit. Note : if they do admit to anything , some agency has to enforce the law, not ignore it.

+Illinois now requires 12 public universities to provide free abortion pills on campus. Yet not one offers prenatal care. This new Illinois law refers to chemical abortions as medication abortions . The law mandates free abortions but zero prenatal or parental advocacy.

+Senator Josh Hawley has opened an investigation into the abortion drug companies. His office required replies as to why the safety warnings have been removed from packaging or adverts on mifepristone. Did they know of the harm to women ? Why do they continue to fail to disclose the known dangers to women and the public ? He also set up a hotline for mothers who have been harmed to confidentially call and share their experiences. 202.224.6154

CLOSING

+Every child's life is worth defending. Step up and do your part !

Lord Save the Unborn Children
