

NOVEMBER 2025 LIFE REPORT

+This report seeks to inform you about Local News, Pro Life, Legal and Chemical Abortion news. You can see this report on the OLL website Life tab.

LOCAL NEWS

+Bottles for Life Campaign is alive and ongoing. 25% of bottles returned. \$1660 donated so far. Your generosity is appreciated as we work to save babies.

+Thanks to those who attended and donated to the Giving Life Banquet for Shiloh/Clara operating funds. The Knights, Ladies and our parish were close to 1/3 of the attendees/donors. Well Done!

PS. We got a very nice letter thanking the Knights for what we do at the clinics.

LEGAL NEWS

+ The Mo Appeals Court ruled against Life by declaring that ALL Mo abortion safety standards, clinic licensing, pre/post doctor visits, and any restrictions are unconstitutional . The judge issued a temporary injunction until the Jan 2026 hearing is completed on the ACLU and Planned Parenthood lawsuit is closed.

+Texas AG Paxton's team have broken up an illegal abortion operation in Houston. Maria Rojas and 2 others posed as doctors operating 3 illegal clinics. In October, 8 others were arrested/indicted for practicing without a license in these same 3 spaces. These evil devils killed 100's of babies.

+On Oct 7 Jackson County Judge Castle dismissed an abortionist group "Right by You" of California petition seeking to eliminate Mo law of parental consent before a minor can have an abortion. The challenge claimed that 2024 Amendment 3 invalidated Mo abortion restriction laws.

+North Carolina passed a measure in Sept that Defunds Planned Parenthood(PP). It requires North Carolina HHS to engage other Medicaid providers to provide services not including abortions. Life Wins !

+ The Hyde Amendment prohibits federal funds to be used to provide abortions or related services. In 2022 the Biden HHS created a "rule" that required unaccompanied children crossing the border to have forced access to medical care across state lines for abortions, at taxpayer cost. The current DOJ has

concluded that this rule violates Hyde. The HHS terminated this policy. 300,000 children went missing and are likely child sex trafficking victims. PRAY.

+Michigan Right to Life and affected parents appealed a dismissal ruling by the 6th Circuit. The cases challenge Prop 3. Prop 3 will remove any parental rights to a minor child seeking an abortion. Parental Consent is Michigan law since 1993. Be Cautious. A similar suit was brought in Mo in October. It was dismissed only on a no standing issue. Mo law requires at least one parent to consent to kill.

+The US SCOTUS has upheld a Kentucky law that requires doctors to show mothers their ultrasound image and audio before an abortion.

+On 24 Oct Mo Sen Josh Hawley introduced a bill to ban abortion coverage and child transgender mutilation from insurance plans on Obamacare exchanges, thus cutting funding. The bill has exceptions for rape and mothers life. PP gets Medicaid funding for 60% of its clients.

LIFE NEWS

+Planned Parenthood Aurora, Ill has seriously injured at least 19 women in 2025. The clinic has created medical emergencies during botched abortions. PP tries to hide the injuries. Untrained staff downplay the injuries during 911 calls. Illinois law officials have done nothing.

+ On Oct 14 Pres Trump posthumously awarded pro life champion Charlie Kirk the Presidential Medal of Freedom. Get your schools to join TPUSA.

+CAUTION is urged as outside monies are funding initiative petitions being circulated. There are no ProLife initiative petitions being circulated as the 2026 A3 ballot is current law. The signatures can easily be transferred to override 2026 A3. DON'T SIGN ANYTHING

+The HHS has an office known as "Office of Population Affairs." The staff of the OPA has been terminated. The mission of the OPA is to "advance reproductive health outcomes and adolescent health" Code word language for promoting abortion and gender mutilation. Planned Parenthood employees were imbedded in this OPA. Who knew ?

+Vote Yes on 2026 Amendment 3.

+Every 2 seconds in America an innocent unborn child is killed by abortion.

+On 21 Oct Calif Gov Newsom announced a blatant subsidy of \$140 million of tax dollars to prop up Planned Parenthood. (PP) Washington , Colorado, and New Mexico have given \$ to PP. Oregon , New York, Illinois, Massachusetts and Hawaii are about to. How do you feel about that?

+Why are the democrats fighting to keep the expiring Covid bonus subsidies going to the insurance companies.? Answer: The Affordable Care Act(Obamacare) sends money to insurance companies to use to cover abortions(less some \$ in their coffers) Thus these ACA subsidies via fungible money bypass existing protections against taxpayer funded abortions. AHA! We hear from the media that the subsidies are to keep premiums at bay. Not true. ProLifers don't want a perpetual stream of taxpayer \$ to backdoor fund abortions . Stand Firm.

+The Missouri Baptist convention Conference voted to support the 2026 Amendment 3. 1700 Baptist churches seek to repeal the 2024 Amendment 3 and resolved to protect life.

CHEMICAL ABORTION NEWS

+In October the State of Louisiana and a resident who survived abortion pill poisoning sued the FDA. The suit petitions the FDA to reinstate the rule that only allows mifepristone to be distributed by a doctor in person not via the USPS or couriers. La AG Murrell also noted to the Court that the FDA's mail order scheme violates the Comstock Act that bans mailing abortion chemicals. Stay tuned. On Oct 23 some of our ProLifers asked Congressman Mark Alford personally to sponsor a bill to push the FDA mifepristone rules back to the original restrictions. Further they asked him to sponsor a bill to enforce the Comstock Act. Send him your messages also so he does something besides nothing.

+16 Oct, 17 US Senators sent a letter to Dr Marty Makary, Head of the FDA -4- seeking answers as to why a new abortion drug was approved for use. The letter again asked for a status on the FDA review of mifepristone safety.

+In the last 5 years in the UK 54,000 women have gone to hospital for emergency treatment after taking abortion pills. The pills came via the 2020 Pills-by-post UK scheme. 1 in 17 had complications. $17 \times 54000 = 918000$ babies killed. Mifepristone is the only drug on the market that was created to take lives.

+36 mothers and their babies were killed by mifepristone in 2024.

+The EPA reports show that 50 tons of aborted baby remains is dumped untreated into Americas waterways every year. Abortion water pollution causes infertility.

+ A poll by ProLife America shows that 7 of 10 voters want a doctor visit for an abortion pill prescription and reject mail order abortion drugs. Most of those surveyed are Pro Choice. 8 of 10 say no to online or foreign drugs.

+A letter to our President and VP from 52 Indiana legislators asked for : 1. Immediate stop of mifepristone and generics distribution and 2. Reinstate in person doctor dispensing and original safety restrictions of year 2000.

CONCLUSION

In October we celebrated Respect Life Month. Let us work every day to protect life and increase the respect for the value of each human person.
