+Bottles for Life Campaign kicks off after the 10,11 Oct masses. Need a few Knights to help hand out bottles after both the masses. Please continue to be generous.

LEGAL NEWS

+VOTE YES ON AMENDMENT 3 on Nov 3 .

It rescinds the 2024 Amendment 3 which allows for abortions anytime for any reason.

It requires abortion clinics to meet medical standards for Health and Safety.

It insures parental consent for minors before aborting.

It bans gender mutilation for minors.

It reduces public funding for abortions.

It bars fetal organ harvesting .

It requires abortions to be only by a doctor.

+VOTE NO ON AMENDMENT 6 – it will:

~Give judges the ability to rewrite ballot language passed by the Mo Assembly (as in Amend 3 in 2026)

~Prohibit the legislature from repealing a citizen led petition unless 80% of the House & Senate vote to put it on a ballot. Impossible !!! Recent citizen petitions were majority funded from out of state.

+The estate of a 26 week old baby won a wrongful death lawsuit against the abortionist who killed the baby. The estate collected \$200,000 in a New Mexico court. The baby was considered a person under state law. She was on meth, thus she could not give informed consent. Boyd knew this . This is the first suit in the US where a baby sued the abortionist and won. Huge precedent for other states !

Hear This Now ! A bill to allow unlimited nationwide abortions is being drafted by the Democrat party. Known as HB12; Womens Health Protection Act. If passed fully it will override ALL ProLife laws of every state. 200 congressman back the bill as cosigners. The bill is to be put on the floor for a vote if the Democrats win control of Congress. Please vote on Nov 3 . We cant allow the Dems to control Congress.

+On Oct 2 Rep Chris Smith, Senator James Lankford and 126 members sent a letter to the Inspector General of the US HHS dept. The ask is to investigate Planned Parenthood (PP) activities and federal funding to PP. PP appears to violate law and regulations governing receipt and use of federal funds. There is evidence, via Live Action documents, that PP is now doing or enabling human sex trafficking, \$88 million in unpaid illegal Covid PPP loans, etc, etc. Is the government granting 3rd party grants that are funneled to PP? These are evil people.

+Louisiana, Arkansas and Alabama are in the SCOTUS challenging abortion “Shield laws”. The claim is that shield laws violate the Constitution and federal law by mailing abortion pills which prevents ProLife states from enforcing their laws. The Plaintiffs ask for an injunction, damages, penalties, fees. Stay tuned.

+A Texas doctor had a sexual encounter with an office patient. He then prescribed an illegal abortion pill kit and was caught. His felony conviction led to the Texas Board of Medicine revoking his license permanently. The minimum penalty for an illegal abortion in Texas is \$100,000. He can be sued by the family for civil penalties in prison as well.

+Planned Parenthood has sued Wisconsin AG, Medical Board and Nursing Board. The petition is to eliminate the 24 hour rule and doctor only rule . The suit asks the judge to “invent” a right to abortion in the Wisconsin Constitution w/o any legislation. If PP prevails it will have a permanent constitutional shield to kill babies at will. Lawyers in other states will use the precedent.

+ Mr Taylor of Tennessee spiked a drink pushed to Jade Benning, 24 weeks pregnant. He faked a 911 call scenario. 2 days later the mother and baby died. Taylor was convicted of 2nd degree murder of the mother AND first degree murder of Baby Ivy. He got 2 consecutive Life Sentences, one each for the separate victims. Thank You Tennessee for recognizing the baby!

LIFE NEWS

+ 40 ProLife groups have called on the Trump admin to permanently Defund Planned Parenthood (PP). Letters were sent to HHS, DOJ, SBA, and Treasury. PP can be cut off from federal tax money by being banned from doing business with any federal agency or contractor, Medicaid, Title X grants and 3rd party contractors. The SBA started an investigation in Jan 2026 of

PP collecting \$88 million in Covid PPP loans. Many other infractions are ongoing. Stay tuned and Pray these devils go down.

+A Christian mother has won her battle w/ Oregon to adopt children . After 3 years she prevailed against a rule that barred her from adopting because she refused to push gender crap ideology on the kids. She refused pronouns, to take children to Pride parades, or get a 9 year old puberty blocker hormone shots. ADF represented her and won fees and costs in the settlement. I suggest that Life Wins !

+ 40 Days for Life has begun the fall session of 2026 in 682 cities. Go to youtube.com/shorts/IaTISa4LM8K to see a mother save her grandson from Planned Parenthood killing him.

+Planned Parenthood has been caught using false codes to conceal dispensing and charging for 48,000 youth to receive puberty blockers and hormones. PP charges the patient AND Medicaid \$3000 to \$25,000 per year for up to 5 years. DO NO HARM Watchdog group reported PP to HHS. Debar PP and stop the funding .!!

+A company called Cercle harvests organs from babies and sells them to UCLA at an average price of \$765. Planned Parenthood provides the aborted babies and has since 1990. Hearts and brains from live babies sell for \$7000 for “research”. Cercle and PP have been referred to the DOJ for violating Federal law. It is a felony to transfer any human tissue for valuable consideration. Satan is winning. We have to fight back.

CHEMICAL ABORTION NEWS

+For 3 years Calif AG Bonta and Gov Newsom sued Heartbeat International for providing Abortion Pill Reversal (APR) services. Ca claimed false advertising . Thomas More Society has faught the legal battle for LIFE. Closing arguments were on 17 Sep. APR is progesterone which is FDA approved. 200 women testified of their decision to use APR and all saved their babies. Ca could not present 1 complaint about APR. The ruing is in 2 months. Let the gratuities be stifled and common sense, LIFE, prevail.

+Josh Hawley has proposed the Safeguard Women from Chemical Abortion act. The bill seeks to strip mifepristone from FDA approval. The bill proposes to ban it completely in the US. Danco is the largest abortion pill provider in the US. It is a totally secret Cayman island business. George Soros funds it.

+Hallie Norton testified on 23 Sept to Congress, asking lawmakers to stop mail order mifepristone. Her story includes a cold impersonal session at an Omaha PP. She was in High School. “They took my money, no questions asked, sent her to a room with a doctor who gave me a pill”. She went home, took the 2nd pill and bled until she passed out. Her friend got her to a hospital for a blood transfusion. She spoke out because the pills will kill you, her baby is gone and others are sent home to wait.

CLOSING

Let us tear down the wall between the born and unborn and let them have the dignity of LIFE !
